FOREWORD

This facsimile copy of the Spanish Military records pertaining to Bernardo de Galvez compiled by Charles Robert Churchill, President of the Louisiana Society Sons of the American Revolution and dated March 4th, 1925 is available through the efforts of COL Bruce Baird Butler, Historian General, National Society Sons of the American Revolution (NSSAR), and Ivan McIvor Foley, Galvez soldier historian and cemetery consultant, New Orleans Archdiocese Archives. It is an exact copy of copy number five of the five original copies produced by compatriot Churchill in 1925. The original copy number five is in the Louisiana Collection of the Howard Tilton Memorial Library of Tulane University.

In 1903 NSSAR approved eligibility for SAR membership of descendants of Galvez soldiers. This was due to the efforts of Compatriot John Dimitry of the Louisiana Society SAR who had obtained the Galvez Army records from the Spanish Archives in Madrid. One of Compatriot Churchill's objectives in compiling the Spanish Military records was to obtain similar approval for membership in the National Society Daughters of the American Revolution (NSDAR). This was accomplished in 1925.

Historian General Butler recently met Ivan McIvor Foley at a meeting at Mr. Foley's home organized by Spirit of '76 NSDAR member Mrs. Louis S. de Lassus to learn of Mr. Foley's Galvez soldiers research. Mr. Foley has identified the graves of over 100 Galvez soldiers buried in the tombs of St. Louis Cemetery No.1 and St. Louis Cemetery No.2 As a result of this meeting the interest of the Historian General in Galvez and Galvez soldiers has been rekindled. Compatriot Butler and Mr. Foley have met several times and the association is ongoing.

The Historian General will present this information to the President General and Genealogist General NSSAR in order to obtain SAR recognition of these Galvez soldiers and to mark their graves. Descendants of these soldiers will be identified with the intent of gaining their interest in applying for membership in the SAR. Coordination with the DAR will be ongoing.

Historian General Butler wishes to thank Mr. Ivan McIvor Foley for his years of Galvez soldier research and for his great contribution to the body of knowledge. His inspiration has been responsible for the reproduction of Churchill's massive volume.

PREFACE

The compilation of this volume was really more of an accident than the result of a premeditated plan as is explained.

Somewhat against his best judgment, the writer accepted the Presidency of the Louisiana Society, Sons of the American Revolution, in the spring of 1916. His idea was to carry it over until we could get someone to take up the work and build up the Society.

In the meanwhile, the writer became very much interested in the work, and with assistance of a more or less indifferent nature from one or two members, laid out a program which was the ground work of the present large and prosperous Louisiana Society.

At the outset, after dropping all those who were not seemingly interested in the work, there remained about forty five members. Since that time, there has been taken into the Louisiana Society a total of five hundred and three members. Of this five hundred and three, three hundred and forty three became members during the writer's incumbency. It might be noted also that from January, 1911, until June, 1917, no one had been taken in. All S.A.R. organizations throughout the U.S.A. now know that the Louisiana Society is "on the map."

It was not long after the compiler got into this work before he saw that there was a great untouched field for membership from among the descendants of the soldiers who served under Galvez in campaigns against the British in 1779, 1780, and 1781. The question then arose as to what had become of the rosters of the Galvez organizations - as a matter of fact, if the rosters still actually existed, was it possible to get copies of them.

Inquiries at the Louisiana Historical Society and the Libraries of this City and elsewhere developed nothing, and for a while the job was considered hopeless.

Later, quite a bit of information and encouragement along these lines was obtained through the kindness and courtesy of Mr. William Beer of the Howard Library. Also a bit of information was obtained from Mrs. Heloise H. Cruzat who was then delving in the Archives of the Cabildo. But this was but a mere "drop in the bucket" as compared to what later developed.

A number of letters were written to various parties in Spain with the hope of getting a line on the situation there, but likewise nothing was developed. It looked as if everybody was ignorant of what the writer wanted.

About this time, in the fall of 1918, the compiler's secretary, who handled the Spanish work for the company which he heads, received an appointment as stenographer in the Naval Section of the Embassy at Madrid, Spain. After

the good lady had gone to Spain, it occurred to the writer that possibly she could assist him. This was a happy thought because not long afterwards, through her assistance, he was put into touch with Miss Irene A. Wright, Avenida Reina Mercedes No. 1, 4^o, Seville, Spain, who, for quite a number of years has been delving in the Archives in Spain in the interests of the Florida Historical Society.

Correspondence with this lady developed a veritable "open sesame," and within a period of a year, she had furnished a vast mass of data bearing on this particular subject. This included certified copies of organizations serving under Galvez in the campaigns against the British, and included the rosters showing officers and enlisted men of the regular Spanish troops, "The Fixed Regiment of Louisiana," the Militia Organizations of the various parts of Louisiana, and in addition, detailed copies of extracts from "The Book of Life and Customs and Services, 1782," which is really a certification of the services of all the officers, sergeants, and cadets.

In addition to this, there was furnished rosters showing the officers and the enlisted men of the Militia Organizations of Louisiana just prior to and subsequent to the years of 1779, 1780 and 1781. These may not be exactly authentic, but they are of great value and assistance. The first named rosters and the information from "The Book of Life and Customs and Services" are of course authentic.

There is bound in this volume an article by Miss Wright entitled "Raymundo DuBreuil," which is very interesting in that it throws considerable light on the situation in and around Fort Bute just prior to the attack by the Spanish troops. It must be remembered that in those days the Bayou Manchac of today was one of the principal outlets of the Mississippi River, Fort Bute was on the east bank, north side of Bayou Manchac and guarded the approach to the Mississippi River from Lakes Borne, Ponchartrain, and Morepas. DuBreuil was in command of the fortifications on the Spanish side just opposite Fort Bute.

Incidentally, it might be mentioned that there has recently been discovered in the old records at the Court House at Plaquemine, Louisiana, a large map giving detailed plans of the fortifications at Manchac and the surrounding country.

I have also included in this compilation some extracts from "The Morning Chronicle and London Advertiser," of January, 1780, a paper which gives a copy of the Articles of Capitulation agreed on between Lieut. Col. Dickson, commanding the British troops at Fort Bute, Baton Rouge, Amite, Natchez, etc., and General Galvez, commanding in Louisiana the Troops of his Majesty, the King of Spain. With this, there are also some copies of very interesting letters of certain British officers explaining the defeat of the British troops by Galvez.

This newspaper was accidentally discovered and purchased by the compiler's good friend, Mr. William Beer, in one of the old book shops down on Royal Street. It is in an excellent state of preservation, and for our purposes is priceless.

In order to make the record more complete, I have had bound in with it an article written by myself bearing on the Galvez campaigns. A careful perusal of this article will bring to light a number of very interesting incidents leading up to the success of the Colonies in their fight for Independence, due solely to the assistance of the Spanish Troops.

This compilation should be of great value from an historical standpoint, and of considerable value to the descendants of the soldiers of Galvez, both male and female, who are seeking membership into any Society of the nature of the Sons of the American Revolution.

It has been a labor of love alone. There has been no profit in it for the compiler. On the other hand, it has been the source of a great expense and sacrifice to him.

There has been spent from the funds of the Louisiana Society, Sons of the American Revolution, upwards of \$150.00, for actual copy work alone. There has already been taken in by the Society sufficient members whose ancestors served under Galvez to more than offset this expense.

As stated above, it has been a labor of love, one meaning great sacrifices to the compiler, but he feels that he has done a work that will be of immense value, and undoubtedly appreciated by those historically inclined, and of generations to come, who are seeking membership into this Society.

There were five copies of the book made, one of which is being donated to the compiler's very dear friend, Mr. William Beer, for the Howard Library. The second copy will go to the Library of the Daughters of the American Revolution in Memorial Hall at Washington. The third copy is for the Library of the Louisiana Society, Sons of the American Revolution. The fourth copy will be retained by the compiler for his personal library, and the ultimate owner of the fifth copy has not yet been decided upon.

SECOND PREFACE

Since writing the original Preface for this book, the compiler found that he had so much additional valuable historical data not copied, that he decided to classify and copy it also. This forms really a second section.

This has resulted in a second Index of Names, and the re-arranging of the General Index, which covers both the first and the second sections of the book.

In the interval, an unbound 1914 edition of Heitman's Register of Continental Army Officers was discovered in an old bookshop. After this was purchased, it developed that in this book, there was a complete roster of the French soldiers serving under Lafayette -- something that had been published only in this last edition of Heitman's.

The idea then occurred to the writer to compile in the same manner a list of names of the Officers, Cadets, and First Sergeants serving under General Galvez, and to have this typewritten and bound as a part of Heitman's Register.

This, therefore, gives the Louisiana Society a 1914 edition of Heitman's Register with a complete list of the Officers of the Continental Army, Officers of the French Army, and Officers and First Sergeants of the Spanish Army serving in Louisiana and Florida.

One copy of this list has been presented to the National Society, Daughters of the American Revolution, and is on file in their Library Headquarters at Washington. Another copy has been presented to the Sons of the Revolution and is on file at their headquarters in New York. The two remaining copies are still in the possession of the compiler.

At the outset, one of the objects of the compiler was to get recognition on the part of the National Society, Daughters of the American Revolution, for the descendants of the Galvez soldiers. This, at first, seemed to be an almost impossible task, but within the current year, that organization has very rightfully recognized the descendants of the Galvez soldiers as eligible to their organization.

C. ROBERT CHURCHILL, President,
LOUISIANA SOCIETY
SONS OF THE AMERICAN REVOLUTION

March 4th, 1925.

Translations to give a better reflection of the writer's thoughts are literal -- perhaps too much so.

C. R. C.

MAP OF THE UNITED STATES IN 1776.

Please note the extent of the Louisiana territory. It must be observed that the States of Georgia, South and North Carolina, and Virginia extended westward to the Mississippi River. In the map, the size of Orleans is somewhat exaggerated so as to make it clearly discernable—it was that portion of the Louisiana Territory mentioned in the treaties as "East of the Mississippi River." The hatched portion "Claimed by the United States and England" came into the possession of the United States in 1810. A very interesting article pertaining to this appeared in the Times-Picayune a few months ago, which for lack of space, is omitted here.
